## Projects

### **Beginner Builder**

A web application for beginner PC builders which utilizes APIs from BestBuy and Google Maps to return a list of parts and store locations where they can be purchased.

### **Escape the Maze - Pathfinding**

A 2D maze game where the player has to escape before being caught by a constantly pursuing monster. Made using Unity 2D

### **Crash Tactics**

A board game where you control an asteroid navigating black holes and planets in an attempt to reach and destroy your enemies.
